PEWE Innovative Quality
The PEWE premier line of dissolved air flotation (DAF) systems cover the full range of solids removal possibilities. Flotation systems are available for very high solids sludge thickening, mixed settle-able solids, as well as standard suspended solids fare.

The unique technology built into each PEWE Nx²JEM® DAF system maximize TSS removal while minimizing chemistry usage and sludge production. With the Tru Counter Flo® plate pack, ParaLam Weir® system, integrated pipe flocculator and ROGUE MAX RGT® aeration, the Nx²JEM® DAF operates with complete precision of the PEWE Command Control® automated panel.

The PEWE complete product line includes screening systems, inclined plate settlers, DAF units, dewatering equipment and accessories. PEWE products and systems are designed in-house and produced under tight quality control. Support services are provided for product life.*

PEWE is an innovative leading company in the field of industrial water and wastewater treatment systems. PEWE offers products worldwide to the Food, Petrochem, Pharma, Metals, Electronics, other industries and Municipal market.

Test Your Water First By PEWE!

PEWE Pilot Test System
PEWE offers complete pilot testing of water and wastewater streams for the purposes of proving its treatability. The system is skid mounted for easy transportation, comes with an experienced operator for set-up, trialing and return shipment. Pilot costs may be applied to subsequent PEWE DAF purchase within one year.*

* Lifetime support services and pilot cost rebates detailed in purchase quotation.
